

Dear ABV-members and friends of Biodynamics,

We are holding an introductory workshop on 21st October at our farm in Toolangi.

This will be a workshop explaining the principles of biodynamics, building a bd-compost, unearthing some of the compost preparations and cow horns with 500, sharing and exchanging experiences and demonstrating the application of preparations.

This is a good opportunity to either refresh your knowledge or, please come if you have not been at such a workshop before.

The attendance is free, but you have to let us know by 13th October if you are definitely coming, so we can properly organise the event.

Please bring a plate to share for lunch, tea and coffee is provided.

Venue: 1907 Healesville-Kinglake Rd., Toolangi, Tel: 5962 9349 or

0417 537 705

Starting time: 10am
